## TECHNICAL SKILLS

GenAI: LangChain, LangGraph  
Languages: Python, Java  
Frameworks: Flask, FastAPI, Spring Boot  
Frontend: Angular, React  
Databases: MySQL, PostgreSQL, MongoDB  
Cloud & DevOps: AWS, Docker, ELK Stack  
Messaging & Cache: Kafka, RabbitMQ, Redis  
Other: JWT, Spring Security, Eureka, Swagger, Git

## EXPERIENCE

### Software Developer

Jan 2025 – Present

*Qrious Tech Team LLP, Prahlad Nagar, Ahmedabad*

- Built and maintained backend services and APIs for FinTech, Food Delivery, and Healthcare platforms using Java, Spring Boot, PostgreSQL, Redis, and Kafka.
- Diagnosed and resolved production-level bugs and edge cases, tracing issues through live systems under real user traffic.
- Improved API performance and data-layer efficiency through caching and query optimization.
- Built an AI-powered chatbot using LangChain and RAG to reduce manual support load.

### Software Developer

Nov 2022 – Jan 2025

*Group Takey, Ashram Road, Ahmedabad*

- Built and maintained backend features for School Management and Telecommunication platforms, integrating third-party APIs.
- Contributed to system design decisions for large-scale applications — service communication, scalability, and maintainability.
- Worked directly with clients to translate business requirements into technical solutions.

## PROJECTS

### Patient Care Management System (Healthcare)

*Java · Spring Boot · PostgreSQL · Redis · LangChain · AWS*

- End-to-end healthcare platform for patient records, appointment scheduling, and prescription management, with an AI-powered chatbot (LangChain, RAG) for automated patient support.

### Smart Business Ledger App (FinTech)

*Spring Boot · PostgreSQL · Spring Security · JWT · AWS · RabbitMQ · REST APIs*

- Business management platform for small businesses with QR-based payments, automated reminders, expense tracking, financial reporting, and multi-user role-based access.

### Food Delivery Platform (Food-Tech)

*Python · FastAPI · PostgreSQL · Angular · AWS · Redis · ELK Stack · Kafka*

- Scalable food delivery platform with real-time order tracking, restaurant management, delivery coordination, and high-traffic performance optimization.

## EDUCATION

### B.Tech. Information Technology

L J Institute of Engineering and Technology (LJIET), Ahmedabad (SPI: 7.7)

### Diploma in Information Technology

Silver Oak University, Ahmedabad (CGPA: 9.98)

### Secondary School (GSEB)

Seth A.H. Sarasvati School, Ahmedabad (71.91%)
